

Frontend demo for MOB

Kindly find enclosed herewith the revised Bharat Connect Brand Guidelines. Key aspects are delineated below:

1. Bharat Connect “B” mnemonic to be placed at the entry of Connect section or Pay Bills sections (across all channels and respective Agent-Institutions). This will help consumer to identify with the brand as they look to begin their journey to pay their bills on the app/website/other channels. (Enclosed B Mnemonic). Below B mnemonic logo use words like Bill Pay/ Pay Bill/ Bill Payment.

Home Screen

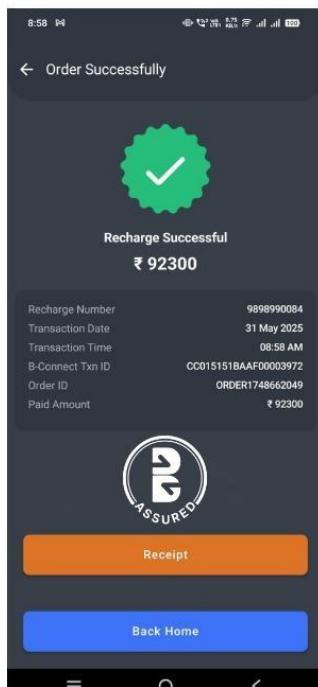

2. Please display all BBPS categories with the Bharat Connect logo as follows:

1. Broadband Postpaid
2. Cable TV
3. Clubs and Associations
4. Credit Card

- 5. Donation
 - 6. DTH
 - 7. E-Challan
 - 8. Education Fees
 - 9. Electricity
 - 10. Fastag
 - 11. Gas
 - 12. Housing Society
 - 13. Insurance
 - 14. Landline Postpaid
 - 15. Loan Repayment
 - 16. LPG Gas
 - 17. Mobile Postpaid
 - 18. Mobile Prepaid
 - 19. Municipal Services
 - 20. Municipal Taxes
 - 21. Recurring Deposit
 - 22. Rental
 - 23. Subscription
 - 24. Water
 - 25. NCMC
 - 26. NPS
 - 27. Prepaid Meter
 - 28. Life Insurance
 - 29. Health Insurance
3. We would like to inform you that the UAT billers, "OTME00005XXZ43" for Fetch and Pay and "OTNS00005XXZ43" for Quick Pay, need to be listed on your frontend. Upon selecting a biller, the system should redirect to the "Bill Fetch" page. On this page, customers can obtain bill details by providing the following information:
- Mobile number:
- 9898990084 for Bill Fetch and Pay
 - 9898990083 for Quick Pay
- Input Parameters:
- a) Param Name: `a`, Param Value: `10`
 - b) Param Name: `a b`, Param Value: `20`
 - c) Param Name: `a b c`, Param Value: `30`
 - d) Param Name: `a b c d`, Param Value: `40`
 - e) Param Name: `a b c d e`, Param Value: `50`
4. Please note that this scenario is for UAT. For production, the field names should be as follows: "Mobile number," "Biller name," "CA number," "Email," "Customer name," etc., depending on the biller. On the fetched Bill Page, the following fields should be displayed: Biller Name, Customer Name, Customer Number, Bill Date, Bill Period, Bill Number, Due Date, Bill Amount, Customer Convenience Fees, Total Amount, Payment Mode, and Multiple Amount Option. The Amount Options include parameters like "Base Bill Amount," "Late Payment Fee," "Additional Charges," and "Fixed Charges," with customers able to select one or multiple amounts, while the "Total Amount" combines the Bill Amount and Customer Convenience Fees, and all amounts should be displayed in Rupees, not Paise.

5. By clicking "Pay" on the Bill Payment page, a receipt should be generated with the Be-Assured logo prominently displayed in the top right-hand corner. The receipt should include the following fields: 20 character BBPD Transaction ID (starting with "CC01"), Biller ID, Biller Name, Customer Name, Customer Number, Bill Date, Bill Period, Bill Number, Due Date, Bill Amount, Customer Convenience Fees, Total Amount, Transaction Date and Time, Initiating Channel, Payment Mode, Transaction Status, and Approval Number.
6. To enhance user experience and reinforce our brand identity, the designated sonic branding audio clip must be played simultaneously with the display of 'B Assured' on the payment successful screen. This sonic branding element should be consistent across all platforms and devices, maintaining the same tone, tempo, and overall audio characteristics.
7. Kindly use term as BBPS Transaction ID which starts from CC01 of 20 characters in below transaction successful page and receipt page.

11:10

13. Bharat Connect logo (horizontal) to be present during selection of Biller, Bill Fetch, Bill Payment and other value added services like Transaction Query, Raise Complaint, Complaint Status etc. The Bharat Connect logo, should be present on the top right-hand corner of the page with optimum visibility.
14. Please ensure that the Be-Assured logo should be present on the top right-hand corner of the page with optimum visibility of the bill payment receipt or payment confirmation page.

NOTE:

1. The logo must remain fixed in position and should not shift across screens.
2. The logo size should be exactly 35px.
3. The logo must appear consistently and remain stagnant across all pages.

4. Either make the background color white on all screens OR use the white version of the logo and keep the background color as per your requirement for better visibility.
5. If your business module is BtoC- then you need to share us the designated sonic branding audio clip, demo has been provided, kindly refer demo video file.
